<p>access to and copies of all communications, including letters, email, other electronic correspondence and other material, since Jan. 1, 2012 including those between EPA staff, between the EPA and Wyoming officials, and between the EPA and all third parties concerning the investigation into groundwater pollution concerns in Pavillion, Wyo. I understand it is common practice for the end date for such requests to be the date the FOIA is received by the agency. If it is possible for the request to include communications beyond this date, I would request it, and I appreciate your consideration. This request modifies, clarifies and updates my previous request. It broadens the scope from communication about the change in the public comment period to the broader topic and moves the date forward in time. In the interest of expedience, the language of my request tracks closely with that of another FOIA on the topic of the Pavillion investigation, EPA-R8-2013-007568.</p>

To Whom It May Concern: We hereby request all records, related to the recent decision for the State of Wyoming to assume the primary role in the ongoing investigations regarding hydraulic fracturing fluids (their use and potential contamination of water supplies) in the Pavillion, Wyoming area, with the State of Wyoming assuming the primary role from the EPA which had previously been the principal investigator. The term "records" is used to mean anything denoted by the use of that word or its singular form in the text of FOIA, including correspondence, minutes of meetings, memoranda, notes, emails, notices, facsimiles, charts, tables, presentations, orders, filings, and other writings (handwritten, typed, electronic, or otherwise produced, reproduced, or stored). We also request all records in EPA's possession that relate to discussions between the EPA, the State of Wyoming, and Encana Oil and Gas (USA) Inc. that relate to the State's assumption of the primary jurisdiction role for research regarding hydraulic fracturing fluids used in the Pavillion, Wyoming area. We also request all records related to internal communications between EPA staff that relate to this decision. This request relates to records held by EPA Region 8 as well as records in the possession of the the offices of EPA Headquarters. Sincerely, Amber Wilson Wyoming

<p>Hello, This is a request, under the Freedom of Information Act, for documents relating to a draft report titled "Investigation of Ground Water Contamination near Pavillion, Wyoming." The report was published in Dec. 2011 by the EPA. I request a copy of all internal communications within the EPA, including letters, emails, and other written correspondence that discuss the report and the state of Wyoming's takeover of the investigation in Pavillion. Please include communications between EPA staff, consultants, laboratories, and other EPA entities when appropriate. This request is in addition to a previous request: EPA-R8-2013-007964. I am a journalist and am making this request on behalf of Wyoming Public Media. This request is made as part of news gathering and not for commercial use. I ask for a waiver of all fees applicable to this request and because Wyoming Public Media is primarily engaged in disseminating information, I ask that this request receive expedited processing. Furthermore, in the event that this records request is denied in whole or in part, please justify all deletions by reference to specific exemptions of the FOIA. Please note that we expect you to release all segregable portions of otherwise exempt material, and we reserve the right to appeal your decision to withhold any of the information we have requested pursuant to paragraph 6 CFR § 5.9(a). I request that the information I seek be provided in electronic format. If you have any questions, please do not hesitate to contact me. Thank you for your time and consideration. Sincerely, Irina Zhorov</p>

<p>Pursuant to the federal Freedom of Information Act, 5 U.S.C. 552, I request access to and copies of all records relevant to the recent decision for the State of Wyoming to take over the lead role from the U.S. Environmental Protection Agency in investigating drinking water quality in Pavillion, Wyoming, and its possible contamination by activities related to oil and gas drilling, including hydraulic fracturing. Relevant records include any email, written or faxed correspondence between EPA, the State of Wyoming, and Encana Corporation between Dec. 14, 2011, and June 20, 2013; internal agency emails regarding the Pavillion investigation over that same period; documentation of meetings between EPA, the State of Wyoming and Encana over that same period; internal memos referencing the investigation over that same period. "EPA" in this request includes both Headquarters and Region 8. As a member of the news media, I am entitled to at least the first 100 pages of these records free of charge. I request fees be waived for additional pages because the records relevant to the Pavillion investigation are currently of public interest because of the EPA's unexpected decision to shift primary responsibility for the in-progress investigation to the state. I request that as many of these documents as possible be provided in electronic form. Regards, Cally Carswell Assistant Editor, High Country News (970) 527-4898 callyc@hcn.org</p>
